MARCORLOGBASES ORDER 4160.1

From: Commander

To: Distribution List

Subj: DISPOSAL OF ITEMS CITING DEMILITARIZATION (DEMIL) CODE  
"C" OR "F".

Ref: (a) DoD 4160.21-M-1 (NOTAL)

1. Purpose. To provide instructions on disposing of items citing Demil Code "C" or "F".

2. Cancellation. BO 4160.1A.

3. Background

a. The reference provides demil instructions for all items except those with Demil Code "C" or "F". Items with Demil Code "C" or "F" require technical review and development of specific demil instructions due to peculiarities within each of the various pieces of equipment.

b. Current regulations require the Materiel Support Division (Code 826) to disseminate disposal instructions to the appropriate offices. However, in some instances the instructions are not available for Code 826 to disseminate. The lack of demil instructions generally occur for items with a Demil Code of "C" or "F". This results in the disposal items being returned to the Fleet Support Centers by the Defense Reutilization and Marketing Offices (DRMO), Albany, Georgia, and Barstow, California, for lack of specific demil instructions.

4. Information. This Order is intended to amplify the reference and local instructions by providing specific processing instructions for Demil Code "C" or "F" items to all centers and offices.

5. Action

a. Directors, Ground Weapons/Automotive and Engineering & Command Control Communications Computers and Intelligence Divisions (Codes 830 & 840). During the acquisition of new equipment, when a Demil Code of "C" or "F" is assigned, and when requested by Code 826 for fielded equipment, Code 830 or Code 840 will ensure that demil instructions are written and a copy provided to Code 826 for further dissemination.

14 Sep 98

b. Director, Materiel Support Division (Code 820)

(1) Act as the Marine Corps focal point in all matters involving demilitarization. Maintain a file of demil instructions for all items managed by the Marine Corps that have a Demil Code of "C" or "F". Request demil instructions be prepared for items not on file from the appropriate Weapon System Manager.

(2) Provide copies of demil instructions when requested by inventory managers, DRMO's, and others.

(3) Establish and maintain a web site that contains the demil instructions for all Marine Corps managed NSN's which have a Demil Code of "C" or "F".

c. Directors, Fleet Support Centers (Codes 871/B830)

(1) Attach current instructions as provided by Code 826 upon receipt of output Document Identifier Code A5J, Disposal Release Order (DRO) for Demil Code "C" or "F" items.

(2) Provide assistance to the DRMO in follow-up actions to Code 826 for documentation of items demil coded "C" or "F", upon request.

(3) If a DRO for a Demil Code "C" or "F" item is received and demil instructions are not available, prepare a memorandum to Code 826 requesting that demil instructions be provided to the DRMO's, Albany and Barstow, and to the Fleet Support Centers (Codes 871/B830) prior to the item being sent to DRMO.

d. DRMO's, Albany and Barstow, should request assistance from the appropriate Fleet Support Center (Code 871 or B830) for follow-up actions when demil instructions are not received with the materiel.

6. Concurrence. This Order has been coordinated and concurred in by both MCLB's, Albany and Barstow.

7. Applicability. This Order is not applicable to the Blount Island Command.

  
G. J. VARELA  
Chief of Staff
